

2-Head LED Emergency Light

Owners Manual

LF-2009-LED-40 SUPER BRIGHT LED

Please consult your electrician for hanging fixture and wiring.

Turn off the main power at the circuit breaker before installing or servicing the light fixture to prevent possible injury from electric shock.

Make sure that all wiring conforms to local and local electrical code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections, obtain services of a qualified electrician. Use wire nuts to cap all connections. **Plastic electrical tape is not recommended.**

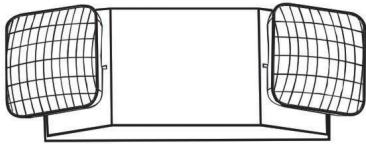

WARNING:
To avoid electrical shock turn off power at the fuse or breaker box.

WARNING:
Wires need to be connected to driver found in canopy and should NOT be connected to power source or a short may occur
